An Award Winning Weekly Newspaper

Thursday, September 23, 2010

Chris Wallace, Union Program Council president, Matt Pray, K-State Student Union Foodservices marketing director, Lori Goetsch, K-State dean of libraries, Becky Bolte, K-State Student Union Foodservices senior director, Tyler Sharp, Union Governing Board president.

Einstein Brothers Bagels Opens At K-State

K-State Student Union Foodservices and K-State's Hale Library welcomed the nation's largest operator of bagel bakeries with a ribbon cutting ceremony September 15. Einstein Brothers Bagels, part of Einstein Noah Restaurant Group, opened its doors in the Hale Library 24-hour study room after more than a year of planning.

"Just over a year ago, I met the dean and found her vision of services included a full-service food outlet. We immediately began to look at our options and found Einstein Brothers Bagels to be the best fit for the needs of our students, faculty and staff. We at the Union are excited about our partnership with Einstein Brothers and the libraries of K-State," said Becky Bolte,

senior director of Union Foodservices.

Currently operating three independent brands including Einstein Bros., Noah's New York Bagels and Manhattan Bagel, Einstein Noah's brands work independently in niches nationwide. Known best for its famous breakfast sandwiches and bagels, five different flavors of Darn Good Coffee(R), flavorful cream cheese shmears and trendy lunchtime sandwiches, Einstein Bros. has secured its distinctive place among competitors.

"Bringing Einstein Brothers into Hale Library furthers our goal of being a one-stop destination for busy K-Staters. Our vision includes the idea of anticipating and creatively filling the needs of our user community. We also

want to steer our users to the "good stuff," so Einstein products and philosophy meshes well with that vision," said Lori Goetsch, dean of libraries.

Available for take-out, dine-in and catering, Einstein Bros.' innovative menu features fresh breakfast and lunch sandwiches, salads and premium coffees served all day. Breakfast and lunch sandwiches are available on a variety of freshly baked breads, rolls or wraps and, of course, a huge selection of tasty, freshly-baked bagels.

Einstein Bros. welcomes the public and community along with the K-State family. Menus, business hours and more information are available on the Union's website at union.k-state.edu/eat.

84 Manhattan Students Earn AP Scholar Awards

The College Board's Advanced Placement Program® (AP®) provides motivated and academically prepared students with the opportunity to take rigorous college-level courses while still in high school, and to earn college credit, advanced placement, or both for successful performance on the AP Exams. About 18 percent of the nearly 1.7 million students worldwide who took AP Exams performed at a sufficiently high level to also earn an AP Scholar Award. The College Board recognizes several levels of achievement based on students' performance on AP Exams.

At Manhattan High School: 2 students qualified for the National AP Scholar Award by earning an average grade of 4 or higher on a five-point scale on all AP Exams taken, and grades of 4 or higher on eight or more of these exams. These students are Andrew Blattner and Hera Wu.

25 students qualified for the AP Scholar with Distinction Award by earning an average grade of at least 3.5 on all AP Exams taken, and grades of 3 or higher on five or more of these exams. These students are Andrew Blattner, Catherine Buckley, Michelle Chang, Emma Chapman, Trey Connet, Gihani Dissanayake, Hannah Duff, Taylor Hart, Shashikiran Kambhampati, David Knittel, Jiayi Li, Marliss McClellan, Danielle McCulley, Luke Messmer, Woojun Park, Danielle Phillips, Genevieve Riley, Jared Rogers, Emory Rosenow, Anne Sisley, Chelsea Spencer, Megan Walker, Sean Weston, Hera Wu, and Julia Wang.

16 students qualified for the AP Scholar with Honor Award by earning an average grade of at least 3.25 on all AP Exams taken, and grades of 3 or higher on four or more of these exams. These students are Katherine Andrews, KR Azad, Nathan Biller, Joel Clark, Jordan Donohue, Thomas Fullagar, Rachel Gorman, Philip Herman, John Malmquist, Amanda Osarczvk, Neil Phillips, Shayna Poole, Jordan Priddle, Prashanth Ramaswamy, Madeline Respellers, and Patrick Schieders.

41 students qualified for the AP Scholar Award by completing three or more AP Exams with grades of 3 or higher. The AP Scholars are Alexandra Akhunova, Philip Anderson, Charles Barkley, Justin Baublitz, Emily Beach, Victor Bedros, Gina Beebe, Margaret Biberstein, Margaret Bieber, Vanessa Boehm,

Corey Broughman, Katherine Bunting, Matthew Clark, Anne Cochran, Samuel Conrod, Zachary DeLoach, Kathryn Douglass, Tyler Friesen, Janani Ganta, Kate Haddock, Cara Hillstock, Neil Hubler-Dayton, Dylan Johnson, Labrina Kelly, Taylor Knapp, Rachel Lease, Anne Maier, Patricia Melton, Anna Murphy, Santhi Reddi, Eric Scheidt, Sydney Schinstock, Kelsy Schoen, Brianna Searles, Keegan Smith, Dylan Snyder, Taehyun Suh, Skyler Thompson, Benjamin Windholz, Meghann Winkler, and Jaime Woeppel.

Through more than 30 different college-level courses and exams, AP provides motivated and academically prepared students with the opportunity to earn college credit or advanced placement and stand out in the college admissions process. Each exam is developed by a committee of college and university faculty and AP teachers, ensuring that AP exams are aligned with the same high standards expected by college faculty at some of the nation's leading liberal arts and research institutions. More than 3,600 colleges and universities annually receive AP grades. Over 90 percent of four-year colleges in the United States provide credit and/or placement for qualifying exam grades. Research consistently shows that AP students who score a 3 or higher on AP Exams (based on a scale from 1 to 5, with 5 being the highest) typically experience greater academic success in college and higher graduation rates than students who do not participate in AP.

The College Board is a not-for-profit membership organization whose mission is to connect students to college success and opportunity. Founded in 1900, the association is composed of more than 5,600 schools, colleges, universities, and other educational organizations. Each year, the College Board serves seven million students and their parents, 23,000 high schools, and 3,800 colleges through major programs and services in college readiness, college admissions, guidance, assessment, financial aid, enrollment, and teaching and learning. Among its best-known programs are the SAT®, the PSAT/NMSQT®, and the Advanced Placement Program® (AP®). The College Board is committed to the principles of excellence and equity, and that commitment is embodied in all of its programs, services, activities, and concerns.

Hanna Bringing Wild Show Here

By Rosie Hoefling
KSU News Service

Kansas State University's McCain Auditorium will kick off its 2010-2011 Performance Series with a live show by zookeeper "Jungle" Jack Hanna.

The performance starts at 7:30 p.m. Friday, Oct. 1, in McCain Auditorium.

Hanna's show, "Into the Wild Live," features many of his favorite animal friends, as well as fascinating and humorous stories and footage from his adventures around the world. Audiences give him rave reviews and everyone

from the youngest child to the oldest adult can be entertained and inspired.

Recognized around the country as America's favorite zookeeper, Hanna has made countless television appearances since 1983. He has been featured on TV shows such as "Good Morning America," CNN's "Larry King Live," "The Ellen DeGeneres Show" and the "Late Show with David Letterman."

Hanna also has created two of his own nationally syndicated television programs -- "Jack Hanna's Animal Adventures" and most

recently, "Jack Hanna's Into the Wild," which won an Emmy for outstanding children's series in its first season.

Tickets for the performance are on sale now. Prices start at \$12 for K-State students and \$24 for the general public. Discounts for K-State faculty and staff, military and children are available. Tickets can be purchased at the McCain Auditorium box office, 11:30 a.m. to 4:30 p.m. weekdays, or by calling 785-532-6428. More information is available online at <http://www.k-state.edu/mccain/>.

Researcher To Give Lecture

By Emily Vietti
KSU News Service

Jochen Schacht, director of the Kresge Hearing Research Institute at the University of Michigan, will deliver the 2010 Rudolph Clarenburg Lecture at Kansas State University's College of Veterinary Medicine.

The lecture will be at 3:30 p.m. Monday, Sept. 27, at the Mara Conference Center in Trotter Hall. The lecture is free and open to the public.

Schacht has served on committees for the National Institutes of Health and has received numerous honors for his work, including being elected a Fellow of the American Association for the Advancement of Science. The

goal of Schacht's research is to determine causes of and help prevent acquired hearing loss.

According to Schacht, his lecture "Hearing and Hearing Loss: From Bench to Bedside" will introduce the delicate organization of the inner ears, explore the major sources of acquired hearing loss, delineate molecular signaling pathways to cell death and outline potential treatment options.

"Hearing is our most sensitive sense and a basis for human communication," Schacht said. "Our ears can pick up the quiet rustling of leaves, recognize the voices of our loved ones -- and not so loved ones -- and enable us to enjoy the spectrum of sounds from a

bass drum to a violin. Yet, our ears are also highly vulnerable, and hearing losses of significant severity affect more than 28 million individuals in this country alone."

The Rudolph Clarenburg Lectureship, established in 1996 to honor the late Rudolph Clarenburg, professor of physiology at K-State, brings nationally and internationally acclaimed scientists to the university to discuss their research. For more information, visit <http://www.vet.ksu.edu/depts/ap/Clarenburg/index.htm> or e-mail Philine Wangemann at wange@vet.k-state.edu.

The Wamego Dutch Mill Sweet Adelines To Compete

Come Fly With Us! The Wamego Dutch Mill Sweet Adelines Chorus is headed to the west coast to make their first-ever appearance in the Sweet Adelines International Competition. The chorus will be on stage in Seattle, WA, on October 21, 2010, competing against 43 choruses from around the world, including New Zealand and Sweden. Choruses are judged in four categories—sound, music, expression, and showmanship—and the 10 choruses with the highest semi-final scores will compete in the finals on Saturday, October 23.

Directed by Kathy Cornish from Topeka, the 47-member group represents 16 communities in northeast Kansas as well as Kansas City. Members have spent long hours rehearsing and fundraising in preparation for this journey. To perfect their

singing and performance skills, the chorus has also received outstanding coaching from another Sweet Adelines director and arranger, Jim Arns of the Melodeers, an international championship-winning chorus from suburban Chicago.

To give the chorus a proper send-off, the public is invited to a Family and Friends Night, October 11 at 7:30 pm at the Manhattan Church of Christ, 2510 Dickens Avenue, Manhattan. The chorus will perform its two semi-final competition songs as well as a 15-minute performance package. The performance is free; donations will be accepted to support travel expenses to the competition.

For further information, contact Lori Goetsch at 785-410-3746 or Sally Vonada at 785-341-0548

Dust Bowl Exhibit At Area Technical College

Opening September 16 at the Manhattan Area Technical College Library is the traveling exhibit Dust Bowl in Kansas. Kansas has suffered through many hot, dry, dusty spells, but the severe drought of the 1930s was one of the worst. The fine topsoil became powdery dry, and the vegetation that usually held it in place grew sparsely.

Strong winds raised dust into billowing clouds and dumped it in drifts across the Plains. "Dust Bowl" was the name given to that part of the southern Plains where the effects of drought and blowing dust were most extreme. The "black blizzards" first struck in 1932 and returned each year throughout the 1930s. Dust Bowl in Kansas explored those difficult years through historic photographs and text. This exhibit was produced by the Kansas State Historical Society and is part of the Kansas Interpretive Traveling Exhibit Service.

Visit or call Manhattan Area Technical College Library, 3136 Dickens Ave, 9:00 a.m.-3:30 p.m. M-F or call 785-587-2800 for more

details. Dust Bowl in Kansas will be open for viewing from Sept 16, 2010 until October 12, 2010]. Admission to the exhibit and related programming is free.

Grand Opening

The Riley County Republican Party will be hosting the grand opening of the 2010 campaign headquarters, located at 327 Poyntz, Sunday, Sept. 26, from 3:00-5:00 p.m.

2nd District Congresswoman Lynn Jenkins is the invited guest speaker. Other local legislative and county GOP candidates will also be in attendance, including 66th House District candidate Lee Modesitt, 67th House District candidate Dr. Susan Mosier, and 1st District County Commission Dave Lewis.

The public is invited and refreshments will be served.

For more information call the campaign headquarters office at 785-320-2719.

Pelosi's False Tax Choice

By Michael D. Tanner
The Cato Institute

Stop the presses: House Speaker Nancy Pelosi has discovered fiscal discipline. On Thursday, she said she opposed the extension of the Bush tax cuts for higher income brackets, because she "can see no justification for going into debt to a foreign country to underwrite and subsidize tax cuts for the wealthiest people in America."

Pelosi is right in at least this much: Our expected \$1.3 trillion budget deficit and \$13.4 trillion national debt pose a fundamental threat to the US economy and our way of life. But she is wrong in her belief that the deficit is due to low taxes rather than profligate spending.

For the last 40 years, federal spending has averaged approximately 21% of GDP, while revenues have averaged roughly 18%, resulting in a structural shortfall of about 3% of GDP. Following the enactment of the Bush tax cuts,

revenues did decline steadily as a percentage of GDP (although measured in dollars, revenues actually increased by roughly \$700 billion between 2003 and the start of the recession in 2008). This year, tax revenues will be only about 14.6% of GDP.

Some of this decline, however, is due not to the tax cuts, but to the recession and its attendant high unemployment. For example, Social Security and Medicare payroll tax revenues have declined significantly even though they were unaffected by the Bush tax cuts.

In predicting a four percentage point increase in revenues by 2012, the Congressional Budget Office estimates that roughly half of that increase would come from post-recession economic growth and half from the expiration of the Bush tax cuts. Projecting that back on this year's deficit would mean that, without the tax cuts, revenues would have been roughly 16.6% of

GDP.

But all this ignores the other side of the equation. During the final years of the Bush Administration and the first years of the Obama administration, spending has skyrocketed. Spending this year will be roughly 24% of GDP, a slight decline from 25% in 2009, but still the second highest percentage since World War II.

Even if revenues returned to the traditional 18% level, we would still face an enormous budget deficit equal to 6% of GDP, the largest since Jimmy Carter was president. With spending set to rise to more than 40% of GDP by 2050, it is quite simply impossible to tax our way out of this deficit.

Speaker Pelosi is presenting us with a false choice: higher taxes or more debt. Spending cuts just aren't part of her lexicon.

Maybe we shouldn't stop the presses after all.

Michael D. Tanner is a senior fellow at the Cato Institute.

Obituaries

Kenneth Dunbar

Kenneth David Dunbar, 86, Manhattan, died Thursday, September 16, 2010 at Stoneybrook Retirement Community after a long battle with Alzheimer's Disease.

He was born on September 5, 1924 in Lake City, Minnesota to Jacob Dunbar and Anna (La Londe) Dunbar. He grew up in Lake City and attended local schools.

After High School he enlisted in the army and completed tours in WWII and the Korean War. He retired as a Staff Sgt in 1968 after 20 years of service. He also spent 5 years working for the city of Manhattan in the Parks and Recreation Department where he was instrumental in the building of the Ice Rink at the City Park Pavilion.

He was a member of the VFW and the American Legion.

He was united in marriage to Jadwiga Harshbarger on November 21, 1961. She preceded him in death on January 26, 2000. He married Ellen Bonnar on April 30th, 2004 in Muskegon, Michigan. They moved back to Manhattan in January 2007. He was preceded in death by his parents, 5 brothers and 2 sisters.

He is survived by his wife, Ellen, 2 daughters, Irais Virginia Sikkenga (Jerry) of Muskegon, MI and Mary Ann Beck (David) of Manhattan. Two step-daughters, Tina Charlson of Manhattan and Anita Cowan (Todd) of Columbia, MO. A step-son Sean O'Brien (Becki) of Canon City, CO. He is also survived by three granddaughters, Sandy Krysch, Angela Mourer (Steve) and Jackie Sikkenga all of Michigan, three step-granddaughters Lauren

O'Brien, Whitney Charlson & Taylor Cowan and 2 step-grandsons, Derrick Cowan and Wyatt Charlson, 6 great grandchildren and 1 great-great grandchild. He is also survived by a sister-in-law Clara Dunbar.

Funeral Services were held Wednesday, September 22, at 2:00 pm at the Yorgensen-Meloan-Londeen Funeral Chapel with Father Keith Weber officiating. Internment followed at Sunrise Cemetery with full military honors.

Online condolences may be left for the family through the funeral home website at www.stewartfuneralhomes.com

In lieu of flowers, contributions may be made to the Alzheimer's Association or Homecare and Hospice, Inc. Contributions may be left in care of Yorgensen-Meloan-Londeen Funeral home, 1616 Poyntz Avenue, Manhattan, KS 66502.

Lawrence Marten

Lawrence "Red" W. Marten, 65, a lifelong resident of Wamego and Louisville, Kansas, passed away Sunday, September 19, 2010 at Valley Vista Good Samaritan Center of Wamego.

"Red" was born in Wamego, KS on June 17, 1945 the son of William Henry and Gladys P. (Bowman) Marten. He attended the Louisville grade school and graduated from Wamego High School in 1963. Following high school, he worked at the local KDOT until enlisting into the U.S. Army in August of 1965. He attained the rank of Sergeant before his honorable discharge in

August of 1967. He then returned to work for KDOT before starting his 31 years of employment at the Goodyear Tire and Rubber plant in Topeka. Most of his work there was in the distribution center prior to his retirement in 2001.

He was a life member of the Black Jack American Legion of St. George and the Manhattan V.F.W., and was a past-member of the United Steel Workers, and the United Rubber Workers Unions.

Survivors include his brother, Lynn D. Marten and his wife Janice, of Neodesha, KS; one niece, Brandie Hoagland, Joplin, MO; two nephews, Rick Marten, Neodesha, KS and Chad Marten, Pittsburg, KS. He was preceded in death by his parents, and one sis-

ter, Alice Kay Marten.

Graveside funeral services with full military burial honors will be held at 2:00 p.m. Thursday, September 23, 2010 at Wamego City Cemetery. Mr. Marten will lie in-state at Stewart Funeral Home of Wamego on Tuesday from 1:00 p.m. until 5:00 p.m., Wednesday from 9:00 a.m. until 5:00 p.m., and Thursday until time of the services at the cemetery. Memorials are suggested to the Valley Vista Therapeutic Garden Fund and may be left in care of the Stewart Funeral Home of Wamego, PO Box 48, 66547. On line condolences may be left for the family at www.stewartfuneralhomes.com

Lemmon, Custer) before employment opportunities prompted the move to Manhattan, KS in 1987.

Mrs. Tilley was employed as a bookkeeper for James Yonning and Associates; an accounting technician for USD 383; office assistant with the USA Corp of Engineers (Milford Lake), and various administrative assistant positions within the Fort Riley community. Mrs. Tilley's last position, her greatest privilege, was with the Garrison Chaplain's office.

Jan's family, friends, and faith in God were her life. She was a member of 1st Lutheran Church, serving the Lord through a variety of activities as an usher, reader, Church Council positions, or any need that arose. She was an active participant in many groups assisting the needs of others, and firmly believed in the idea of "pay it forward" and "passing it on". She enjoyed watching wildlife and was especially fond of viewing and feeding birds.

Jan is survived by her husband,

Stan, of the home; a daughter, Donna of Raleigh, NC; a son, Raymond of Norwood, CO; grandson, Tynan of Raleigh, NC; brothers Richard [Rick] (Judi) Kane and Donald [Don] (Daphne) Kane of Fargo, ND; sister Kathleen [Candi] (Kevin) Christopherson of Fergus Falls, MN; sister-in-law Ellen (Jim) Andersen of Omaha, NE; mother-in-law Florence Tilley of Salem, SD; special family friend Erik Benson and his daughters Zoe and Isabelle; 12 dear nieces and nephews; numerous cousins; and an extended group of friends who were like family.

She was preceded in death by her parents; infant son, Gregory John; and father-in-law, Delmar Tilley.

As she requested, Jan will be cremated. Celebration of life services will be held at First Lutheran Church at 10:30 AM on Thursday, September 23, 2010, with Reverend Dr. Keith E. Wiens officiating. Final inurnment will be at Spencer Cemetery in Spencer, SD.

Online condolences may be left for the family through the funeral home website at www.ymlfuneral-home.com.

In lieu of flowers, memorial contributions may be made to the Back Pack Project at Flint Hills Breadbasket; or the Meadowlark Hills Good Samaritan Fund, all in Manhattan, KS. Memorials may be left in care of Yorgensen-Meloan-Londeen Funeral Home, 1616 Poyntz Avenue, Manhattan, KS 66502.

Jan Tilley

Janet (Jan) A. Tilley, 61, passed away September 14, 2010 at the Good Shepherd Hospice House in Manhattan, KS.

She was born April 30, 1949 in Jamestown, ND to Vaughn and Verda (Bohnenstingl) Kane.

She began her education in Mt. Shasta, CA, then moved with the family back to North Dakota. She grew up in Fargo and graduated from Fargo North High School in 1967. In March 1969, she received an Associates degree in Accounting from the National College of Business (National University) in Rapid City, SD.

She was married to Sanford (Stan) G. Tilley on March 15, 1969 in Fargo, ND. The couple met in college while attending many of the same classes.

Following Mr. Tilley's six year enlistment in the Navy with duty in Virginia, the couple returned to SD. They lived in several SD communities (Rapid City,

Blues Cancer Event Sunday

By Marcia Locke
KSU News Service

Manhattan-based Red State Blues Band will perform a benefit concert at 7 p.m. to 9 p.m. Sunday, Sept. 26, at the Wareham Opera House, 410 East Poyntz Ave., Manhattan.

This will be "a concert to celebrate the life of Deb Lundberg and raise money to beat the disease that took her away from us," said the band's harmonica player Walter Dodds.

A \$10 donation is suggested to enter and refreshments will be available. Proceeds will go to Kansas State University's Terry C. Johnson Center

for Basic Cancer Research.

More information about the event and the cancer research center is available at www.cancer.k-state.edu or by calling the center, 785-532-6705. More information about Red State Blues Band is at <http://www.redstatebluesband.com>.

K-State's Johnson Center for Basic Cancer Research works to further the understanding of cancer by funding basic cancer research, and supporting higher education and public outreach. Its programs are made possible through private donations.

Dust Bowl in Kansas will be open for viewing from Sept 16, 2010 until October 12, 2010]. Admission to the exhibit and related programming is free.

German Artist Here

A German-native artist will present a Scherenschnitt exhibit, the German art of cutting a design with scissors into black and white paper to create silhouettes, portraits and shadowgraphs.

Sponsored by Union Program Council, Ursula Dunnewind's exhibit features Scherenschnitt pieces inspired by her childhood in Germany portraying scenes with children, flowers, birds, and butterflies. The exhibit is a part of Community Cultural Harmony Week and will run Sept. 20 through Oct. 4 outside the Cat's Pause on the second floor of the K-State Student Union.

"Recollections of my young life gave me the impetus to choose Scherenschnitt as a vehicle for my creative expression. The exquisite designs of the artists of my preschool books are still an attraction. To recreate those

Kansas Profile - Now That's Rural: Todd Kuntz - Mr. K's Farmhouse

By Ron Wilson, director of the Huck Boyd National Institute for Rural Development at Kansas State University.

"Paddled a President." How'd you like to have that on your resume? Today we'll learn about a historic Kansas restaurant founded by a remarkable woman who, among other things, gave the President of the United States a swat on his bottom with a wooden paddle. And it didn't happen when he was just a kid, it happened when he was 75 years old! Now another generation of a restaurant family is maintaining and enhancing the traditions that this remarkable woman began.

Todd and Tammy Kuntz are the owners of Mr. K's Farmhouse Restaurant near Abilene, Kansas. The restaurant was originally founded as Lena's.

Miss Lena Benson grew up at Abilene and considered herself a tomboy. On a trip to Kansas City she saw a fortune teller who said she should be selling foodstuffs to the public. She didn't want to be in a kitchen, but eventually entered the restaurant business.

Her first restaurant consisted of two tables, four chairs, and a counter with six stools. Lena served fried chicken, potato salad, and pork sandwiches at 15 cents each. Wow.

One day she was tarring a roof on one of her buildings and her hair caught fire. She was trapped in the building. According to legend, she feared all was lost but looked out a window, saw a neighboring farmhouse on a hill, and was convinced that it was her destiny. She dove out the window and saved herself.

She bought that farmhouse and opened a restaurant there in 1939. It was known as Lena's. Lena expanded the restaurant and the

Ron Wilson

business through the years. One of her traditions was that guests who came to the restaurant on their birthday would receive a swat from a wood paddle.

Many guests received a paddling through the years, but in 1963, Lena received a visit from Abilene's favorite son, Dwight D. Eisenhower. Ike had just finished his last term as President. He ate at Lena's around his birthday - but she didn't paddle him. When the regulars heard about this break with tradition, they let Lena know. And when Ike came back in 1965, Lena presented him a surprise birthday cake - and then proceeded to give him a swat on his keister.

Apparently the President was very good natured about all this and autographed the paddle. Would the Secret Service let someone get away with that today?

Anyway, Lena's was quite a landmark through the decades. In 1974, she closed the restaurant and retired, living there for another 20 years.

In 1994, a couple named Ed and June Kuntz were out for a drive near Abilene when they drove by Lena's house and spotted a "for

sale" sign there. Ed and June already owned restaurants in Abilene, and they saw the opportunity to expand. They bought Lena's place, shortly before she passed away. They remodelled, expanded and opened the place as Mr. K's Farmhouse Restaurant in 1995.

Now their son Todd and his wife Tammy own and operate Mr. K's Farmhouse Restaurant. They have skilfully maintained Lena's traditions, such as authentic pan fried chicken, great salad dressings, delicious steaks, homemade pies, and - oh yeah - birthday paddlings. In fact, one room of the restaurant is known as the Eisenhower Room. It includes photos and paintings of the Eisenhowers plus chairs where Ike and Mamie sat and a paddle which Mamie autographed.

The building is a genuine farmhouse. It has a down-home feel. For example, the restaurant sells cookbooks from churches in nearby rural communities such as Enterprise, population 825 people. Now, that's rural.

Thanks to the Kuntz family, Mr. K's Farmhouse Restaurant has recaptured the wonderful history and atmosphere of this historic eating place. For more information, go to www.mrksfarmhouse.com.

"Paddled a President." Imagine that on your resume. Today we've learned about a remarkable Kansas woman who did paddle a President. More importantly, she built an excellent restaurant and supported her community. We commend Todd and Tammy Kuntz for making a difference by maintaining Lena's tradition of good food and great service in a rural setting. Without entrepreneurs like these, rural Kansas would be up a creek without a paddle.

Many commentators will say teen pregnancy accounts for most single motherhood, but this is false. Less than 8 percent of new single moms are under 18. In fact, most unwed births are to end up on welfare. young adult women in their 20s. The majority of unwed moms don't have much education; most end up on welfare.

If Americans are serious about reducing poverty and getting control of federal welfare spending, we must strengthen marriage. We can do this in several ways, beginning with reducing anti-marriage penalties currently in welfare programs and providing factual information to low-income communities about the benefits of marriage.

Herndon New Hire At KSU

By Cheryl May
KSU News Service

An individual who successfully managed Web teams at four colleges and universities has accepted the position of university web director in Kansas State University's Division of Communications and Marketing.

William H. "Bill" Herndon Jr., currently the Web services manager at Indiana State University, Terre Haute, will direct the newly-created web services unit in communications and marketing.

"We had outstanding candidates for this opening, but we selected Bill because his experience is an exact fit with what we need now at K-State,"

said Jeffery B. Morris, vice president for communications and marketing. "Web services will assist academic and support units on campus in getting their message out on the Web."

A reception to introduce Herndon to the campus community will be 1:30-2:30 p.m. Thursday, Sept. 30, in the Dole Hall lobby.

In this new K-State position, Herndon will facilitate the creation and implementation of a university web strategy that sets the overall direction for the university web presence. As university web director, he will have overall responsibility for navigation, look and feel of the K-State web experience and distributed

content. He will provide expert consultation, leadership and project management for K-State's web presence. At Indiana State, he has held monthly brown bag lunches for webmasters and others to answer questions, offer assistance and improve communication about the university's website.

Herndon has been at Indiana State since 2005, where he led efforts to maintain and enhance the university website; to create and maintain social media sites to highlight the university for prospective students and parents; and to create tactical and strategic plans for Internet use and development for external audiences.

Collapse Of Marriage Spurs Poverty

The Heritage Foundation

Washington, D.C., Sept. 16, 2010—The Heritage Foundation released the following observations by Robert Rector, senior research fellow and leading authority on reforming the federal welfare system, regarding the poverty data out today from the U.S. Census Bureau.

Heritage also released a new paper by Rector on the topic along with "Marriage and Poverty in the U.S.," an online slide show in which he charts how marriage reduces poverty in every state - and proposes seven steps to make the most of marriage as "America's No. 1 Weapon Against Childhood

Poverty."

Rector's statement:

New data from the Census Bureau show the largest increase in poverty in recorded U.S. history. Under President Obama's watch, an additional 3.7 million Americans fell into poverty in 2009.

Buried in the census report are startling figures revealing the principal cause of child poverty: the collapse of marriage. Families headed by single mothers are almost five times more likely to be poor than are married couples with children; overall, nearly 70 percent of poor families with children are headed by single parents.

The big secret in the Census Bureau's report is that marriage is America's number-one weapon against child poverty. But marriage has rapidly declined in our society as the number of women who have children without being married skyrocketed.

Historically, unwed childbearing was rare. In 1964, when the federal government launched its War on Poverty, 6.8 percent of births were to single mothers. Today, the unwed birth rate has soared to 40 percent: four of every 10 births are to a single mother. For Hispanics and African Americans, it's significantly higher.

This trend is extremely detrimental for society. When compared to children raised by married parents, children raised by single parents are more likely to have emotional and behavioral problems; be physically abused; smoke, drink, and use drugs; be aggressive; engage in violent delinquent and criminal behavior; have poor school performance; and drop out of school.

Contrary to conventional wisdom, nearly all unwed fathers are employed, and most earn enough to lift mother and child from poverty. Tragically, however, few unwed parents marry.

Design Lecture

The College of Architecture, Planning and Design at Kansas State University is launching its 2010-2011 lecture series with a magical excursion into the world of Disney Imagineering.

William "Bill" Hanus will describe the design methods of imagineers as he reflects on his own career working for the entertainment juggernaut in a lecture at 7:30 p.m. Wednesday, Sept. 29, in Forum Hall at the K-State Student Union. The event is free and open to the public.

Hanus currently serves as a director of development in the resorts division of Walt Disney World near Orlando, Fla. He has worked for Disney continuously since he graduated from college. Hanus has been associated, in some fashion or another, with virtually every lodging facility built on the property.

He is one of two directors at Walt Disney World who manage the design development of hotels, lodges, vacation clubs and resorts.

Hanus works very closely with designers from some of the most prominent architectural firms across the country. Most recently these firms have included Gwathmey Siegel of New York and 4240 Architecture of Denver. He acts partly as liaison between outside architects and the highest Disney corporate officers, and partly as editor of the design proposals that come across his desk from those outside firms. He is a gatekeeper protecting the overall Disney brand and public image.

Thoughts From The Prairie

Band of Brothers

Five years ago a Band of Brothers under the banner of One Voice Kansas stood before the Manhattan Human Rights and Services Board and presented arguments that revising the Manhattan City Ordinances to include Sexual Orientation as a protected class was unnecessary, lacking confirming evidence of discrimination. Further, the Band argued that the proposed ordinance would be harmful to businesses and would impose limitations on freedom of speech and religion guaranteed by the Constitution. The Board vote was three for and three against the proposed revisions and presented no recommendations to the City Commission. The matter was then tabled.

Now five years later, the Manhattan City Commission is proposing again to revise the City ordinance to add Sexual Orientation as before, but have now added Gender Identity, both as protected classes. Again a Band of Brothers, under the banner of A Group of Manhattan Pastors, have argued before the City Commission and the Human Rights Board that there is still no compelling reason for the revision for there is still no confirming evidence of discrimination because of Sexual Orientation. The addition of Gender Identity is very problematic because this condition is yet to be defined. Further, the contention by three commissioners that homosexuality is biological has no scientific basis. The American Psychiatric Association statement declares, "No findings have emerged that permit scientists to conclude that sexual orientation is determined by any particular factor or factors."

Attorney Daniel Blomberg, at the Alliance Defense Fund, thoroughly reviewed the proposed ordinance and concluded, "The proposed nondiscrimination ordinance is highly problematic. It fails to protect the cherished religious freedoms of Manhattan residents, business owners, and religious organizations. Its onerous, unworkable scheme subjects business owners to excessive liability..."

Gabriel Rotello, a self-proclaimed homosexual, in his book, Sexual Ecology, wrote, "It has long been noted that when people believe they must act a certain way because of some inborn 'trait,' they tend to believe that change is impossible and as a result don't even make an effort to change." But there is compelling evidence that change is

Dick Miller

not only possible but documented as in one of numerous testimonies: "Stephen, 46 years old, is a former homosexual. He lived as an active homosexual for over 11 years, and struggled most of his life with same-sex attraction. In 1990, Stephen who was happy with [the homosexual] lifestyle and in a committed 'gay' relationship for several years, was lovingly confronted by a Christian with the gospel of Jesus Christ. Two years later, he was born again and completely surrendered his life to the Lord. He would never be the same again. He left his male partner and began his new walk with Christ. Stephen and Irene began dating later that year in October of 1992 and the two married the following June. Now, 18 years later, Stephen is free from all aspects of homosexuality."

The Band of Brothers is united in affirming the dignity and worth of each person in our community. We are committed to the welfare of our congregants and the entire community by preserving the constitutional rights to freedom of speech and religion for each person in the community. We offer redemptive and reparative hope for any whose life is absent the joy of living according to Nature's God. In the words of Abraham Lincoln, we present our cause before this community, "With malice toward none; with charity for all; with firmness in the right, as God gives us to see the right."

"Conscience of Kansas"

Values Voter Summit: Why winning is not enough

The recent Values Voter Summit in Washington gave people a chance to hear from some of the potential Republican presidential candidates for 2012. Indiana Congressman Mike Pence, the lesser known of the political lineup that spoke at the event, took first place with 24 percent, narrowly beating former Arkansas Governor Mike Huckabee who received 22 percent of the votes from the 700 plus attendees of the event.

While straw polls have no real validity as a gauge of the future political waters, they do show us that the Republican Party has begun to think about the future. It is now that the GOP and the American people must do some careful thinking. As much as we all would love to know the primary candidates now, strategic reasoning places most of those declarations further down the road. The most important reason for this is that when politicians announce their candidacy, they are immediately placed under attack, often attacks frivolous in nature, and must expend valuable time and resources defending their names. Strategically, this is a fight best scheduled for months before an election, not years. While this kind of baseless mud throwing demeans the process, it has unfortunately become so common that we are shocked when politicians at any level of government simply square off on their platform issues. At my last count, Delaware senatorial candidate Christine O'Donnell, who just won her primary, is currently accused of being a mentally unstable, litigious, satanic witch who improperly uses campaign funds to gain the allegiance of a radical right-wing Tea Party movement. Did I miss anything? A stroke of the keys on your computer in a week will probably bring forth accusations that make these look tame, and a presidential candidate will have it much worse.

As much as I feel for whomever will take on that monumental task of being the Republican presidential candidate for the primaries and later, the winner in the general election, I am much more concerned about losing the country. In the bigger picture, that is the challenge at hand. Here are some fundamental truths along the pathway to the 2012 presidential election: Barack Obama will be extremely hard to beat in 2012. Any mentality to the contrary is almost as detrimental to the GOP as being part of an ACORN voter registration drive. On my radio program Conscience of Kansas I spoke with Lt. Col. Robert "Buzz" Patterson, author of the book "Conduct Unbecoming." Patterson said of Obama that "he is the most anti-American, most radical president we have ever elected by far." Now remember, Patterson worked directly with former president Bill Clinton. Despite the painful accuracy of Patterson's assessment and the growing discontent found in Astroturf-free groups like the Tea Party, Obama and the Democrats have several ways to achieve victory in 2012. Republicans have only one.

Here are some more 2012 election truths: Barack Obama is nothing if not a superb campaigner. Let not the lackadaisical John McCain presidential campaign diminish the real effectiveness of Obama's campaign machine when put into action. We would also be wise to understand that power achieved is never easily relinquished. If the Republican Party fails to place truly conservative candidates in the primary, Obama will win. If the American people allow

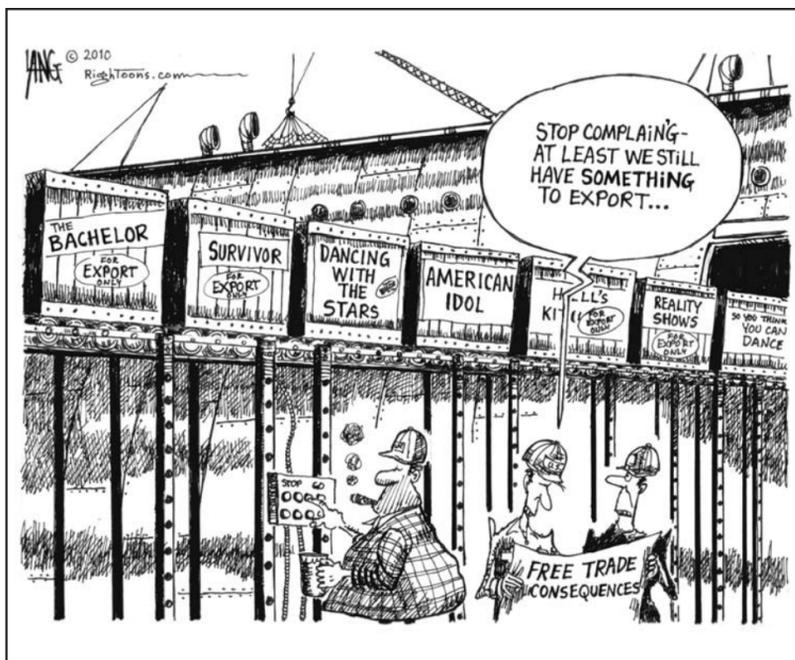

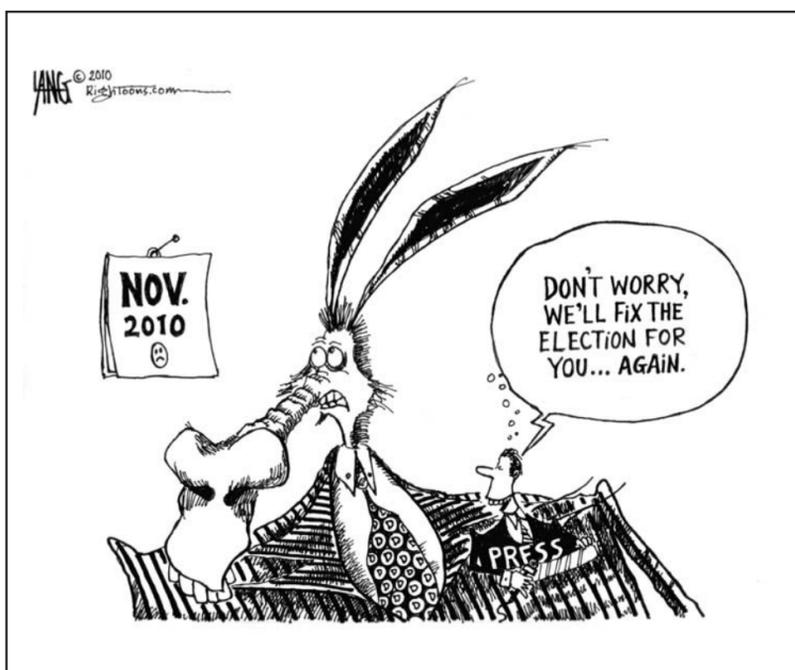

Paul A. Ibbetson

third-string democrats in the form of RINOs in the Republican Party to surpass true conservatives in the primary, Obama wins. If the American people vote a strong conservative through the primary and the party fails to adequately disseminate those values and how they address the issues of the day, Obama wins. Lastly, and possibly the most overlooked potential for defeat during the course of this upcoming 2012 general election battle, even if Republicans defeat Obama in the general election, if our party's candidate does not have true conservative values, we lose, we lose, we lose.

It might sound that pessimism is the word of the day, but that is not so. Barack Obama is indeed beatable, and he deserves to be placed in the annals of history with democrat failures such as Jimmy Carter. Like many unhappy Americans today, I look forward to voting in the 2012 election. Heck, I want to video tape my trip to the polls and put it on YouTube, just to be able to relive the moment and to anger liberals till the end of time. However, the Republican Party must have a true conservative candidate to show voters the clear delineation between their values and the socialistic values of Barack Obama.

The Values Voter Summit is but one of many chances for politicians in the Republican Party to prepare themselves for the scrutiny of the American people on both the right and the left. If Mike Pence and others can truly model the congressman's own words at the Voter Summit that priorities are to be a Christian, conservative and a Republican, they will find the support of the Tea Party, they will be equipped to address the economic concerns of this nation. They will also have the strength from faith necessary to handle the liberal onslaught and defeat the Obama political machine. This is the Republican Party's only true option to victory in 2012.

Paul A. Ibbetson is a former Chief of Police of Cherryvale, Kansas, and member of the Montgomery County Drug Task Force. "Were it left to me to decide whether we should have a government without newspapers or newspapers without a government, I should not hesitate a moment to prefer the latter."
- Thomas Jefferson, 1787

Tax Hikes: Hurt Americans

By William Beach and John Ligon
The Heritage Foundation

The end of the August recess brought with it the beginning of a historic tax debate. Congress soon will decide whether to extend tax relief passed in 2001 and 2003 to all income-earning groups or to only some. In the course of making that decision, Congress may set the fate of the U.S. economy for the next decade.

Politically speaking, President Obama and the congressional leadership have framed this debate as one about the "haves" and the "have nots." But economically speaking, the debate is about something altogether different. Anyone who sees this tax debate as one between the "haves" and the "have nots" is watching the wrong debate. Rather, this is a contest between those who want the blessings of strong economic growth versus those in Washington who would willingly sacrifice those blessings solely to satisfy their appetite for more revenues.

A Dynamic Simulation of the President's Tax Plan

What are the economic costs of this appetite for more revenues?

Economists in The Heritage Foundation's Center for Data Analysis (CDA) conducted a dynamic macroeconomic simulation of the President's tax plan studying the economy-wide effects over the next decade of the likely expiration of 2001 and 2003 tax law. The dynamic simulation modeled the likely tax increases on single and married taxpayers earning over \$200,000 and \$250,000, respectively, compared to the baseline forecast of the economy with an extension of 2001 and 2003 tax laws for all income-earning groups.

Employing a dynamic economic simulation is crucial for this tax policy debate, since it accounts for the compounded effects of the policy change in the economy over the entire forecast period. It makes little sense to assume that changes to tax rates and levels affecting the cost of the productive factors in the economy would not change the behavior of individuals and businesses. Economic theory predicts otherwise and suggests that the feedback cycle from behavioral change continues over time throughout the economy.

Dynamic Economic Results

The CDA study uses a baseline scenario of extending the 2001 and 2003 tax rates on all income-earners.

Compared to this baseline, the President's tax plan would result in 240,000 fewer jobs in 2011 alone—continuing to place downward pressure on an already weakened labor market and U.S. economy. Over the next decade, the American economy would have to absorb an average of 690,000 job losses each year. In 2016 alone, lost job growth tops 875,000.

These economic effects would steadily push up the cost of providing labor and investing in new productive capital in the economy. This means the disincentives to work, save, and invest in the U.S. economy would rise, largely through the increases in the marginal tax rates on capital gains, dividend income, and ordinary income. A substantial increase in marginal tax rates would raise both the after-tax wage rate and the cost of capital.

Decline in Investment. This increase of the tax burden on capital in the economy is a key concern. Pushing the cost of capital higher through hikes in marginal tax rates would lead to lower levels of business investment and the flow of domestic capital stock in the economy. The simulation results show that real non-residential fixed investment would likely respond negatively, declining an average of \$33 billion per year, or approximately \$330 billion in total foregone real non-residential fixed investments from 2011 through 2020. Gross private fixed investment spending would fall approximately \$47 billion per year during the same forecast period. The lower investment over the next decade would likely mean even lower growth of productive resources beyond the 10-year forecast period.

Reduced Household Wealth. U.S. households would also likely experience a fall in real wealth and spending power over the next decade due to the reduction in jobs and the higher tax burdens. Results from the simulation analysis show a real fall of \$72 billion (yearly average) in household income over the next decade. This tax policy change would lead to \$180 billion less in total household income in 2011 and 2012 alone. Moreover, U.S. household wealth and residential fixed investment would decline each year—never exceeding the baseline forecast—reaching a low in 2017 and 2019, respectively.

Lower Federal Revenues. The CDA study shows that under the President's tax plan, the federal government would collect less revenue than

expected under the static estimates. Over the next decade, if tax rates increase, the tax base would grow less rapidly than expected. Not only would there be fewer dollars from the personal income and corporate profit taxes, but a large drop in payroll tax receipts would occur as well. Indeed, the very revenue stream dedicated to supporting Social Security and Medicare would see a shortfall of \$170 billion in forecasted revenues.

Economic Harm to All Americans

Essentially, the President's tax plan would provide a less stable investment and business growth environment than the baseline of extending the 2001 and 2003 Bush tax cuts for all income-earners. The forecast of the economy with the President's tax increases would likely leave Americans worse off. Lower household income would depress household consumption, discouraging businesses to increase investment spending and hiring in response to lower overall demand in the economy.

Farther out over the decade, higher costs of capital and lower U.S. equity values would significantly weaken household consumption and business fixed investment. And this lower business fixed investment would reduce both the economy's capital stock and its potential output. The CDA simulation in summary supports these forecast expectations over the next decade.

Policymakers should consider these economic effects on all Americans, and importantly, refocus their efforts on encouraging more work, investment, and entrepreneurship in the U.S. economy. Tax increases on labor, capital, and enterprise—the productive factors that drive economic growth—in this weak economy would absolutely impact all American economic livelihoods.

Spare Americans Even More Economic Hardship

Politics has taken grip on this tax policy debate; the President in particular is making it a political debate rather than one on economic policy. The economic effects of not extending the 2001 and 2003 tax laws would impact all Americans, especially those who will just start their economic lives and the millions more trying to find work after the worst recession in 60 years.

William W. Beach is Director of and John L. Ligon is Policy Analyst in the Center for Data Analysis at The Heritage Foundation.

Clean-up On Waste Landfill

By Beth Bohn
KSU News Service

Work cleaning up an old research waste landfill on the Kansas State University campus will begin soon. The site was a burying ground for low-level radioactive waste and chemicals.

The Kansas Board of Regents has given approval to a remediation plan for the Old Chemical Waste Landfill, which is in a fenced-in area north of Kimball Avenue and to the west of K-State's grain science complex. The university's clean-up plan is being done in collaboration with the Kansas Department of Health and Environment and the Environmental Protection Agency. A public notice

about the project will be issued soon by the state Department of Health and Environment.

The project is estimated to cost \$3.7 million and will be paid for from a combination of sponsored research overhead funds and bond funds, according to Bruce Shubert, K-State vice president for finance and administration.

The landfill was used by K-State from the mid-1960s to 1987. It was created with the approval of the U.S. Atomic Energy Commission and was a burying ground for tritium, carbon-14 and other short-lived radioactive elements. The university also disposed of some chemicals at the site from 1979

to 1983. The university has been monitoring the site since 1990 to ensure there are no problems with contamination to the community.

Steve Galitzer, director of the department of environmental health and safety at K-State, said burying such waste was a common practice for research universities at the time, and that K-State followed all government regulations on hazardous and radioactive waste disposal. Galitzer also said that by having its own site, the university was not disposing of radioactive waste and chemicals in the Riley County landfill.

"The times and regulations on handling of hazardous wastes have changed," Galitzer said. "K-State no longer buries such waste; all of it now goes to a treatment storage or disposal facility, as required by law."

Galitzer said the university has a detailed record of the radioactive waste that was buried at the site, along with a general idea of the chemical waste that was buried.

"It's time to get it cleaned up for good," Galitzer said. "We have spent about \$250,000 a year since 1990 to monitor the site, with costs expected to escalate in the future."

The clean up will begin in October or November with groundwater remediation. Galitzer said monitoring, done several times a year for the past 20 years, has shown groundwater at the site does not go off campus.

"We have 31 monitoring wells in the area. We also conduct tests for above-ground radioactivity and have found none," Galitzer said. Vegetation in the area, including trees and shrubs, are also tested.

The remediation plan starts with building a 100-foot by 4-foot trench on university property to capture a plume of contaminated groundwater and then clean it with a treatment system. By July 2011 sampling of the landfill soil will start. Workers will begin digging up the landfill in January 2012, removing its contents, sorting and screening them, and then shipping them to the proper facility for disposal. Workers involved will wear hazardous materials suits, and signs will be placed on the site to inform the public of the project.

A final assessment of the remaining soil at the landfill, to ensure that it is clean according to KDHE and EPA standards, will be done by April 2013. The landfill will then be filled and the site restored.

Galitzer encourages anyone with questions about the site, the remediation plans or other concerns to contact him at 785-532-5856 or galitz@k-state.edu.

KSU Emergency System To Test

By: Katie Mayes
KSU News Service

At about 10:15 a.m. Monday, Oct. 4, Kansas State University will conduct a test of K-State Alerts, the university's emergency notification system.

Emergency notification channels to be tested include: text messaging, automated phone calls, e-mail to all K-State accounts and the new alert beacons in various buildings across the Manhattan campus.

K-State officials also now have the ability to post emergency information directly to the university's home page. This new feature also will be tested.

K-State Alerts is used when a dangerous condition exists on campus, such as an active shooter or university closure due to severe weather.

Steve Galitzer, director of environmental health and safety at K-State, said that K-State Alerts is tested twice a year to ensure that it will work during an actual emergency.

During the test, text messages, automated phone calls and e-mails will be sent out. In addition, the wall-mounted alert beacons will emit a loud siren, flash strobe lights and provide digital scrolling text for two full minutes. They cannot be turned off during the

test. To sign up to receive emergency notifications by text message or an automated phone call, students, faculty and staff with active K-State eIDs must enroll in K-State Alerts through the eProfile system. Eligible K-Staters can add contact information of parents, children and spouses when they sign up. The eProfile system is available at <http://eid.k-state.edu>.

For text messages, factors such as service provider, coverage area and total load on local communication towers can impact when and if users receive messages.

Those who already subscribe to text message and automated phone calls won't need to re-register, but officials recommend checking the website to make sure K-State has current phone numbers and e-mail addresses.

Individuals who sign up for the service and do not receive the test alert or any other alerts should contact K-State's IT Help Desk at 800-865-6143 or 785-532-7722. Users are responsible for any messaging charges from their phone service providers and for keeping their emergency contact information up to date.

More information is available at <http://www.k-state.edu/safety/alerts>.

Couple Make \$1M Grant To K-State

Jim and Carol Brown, Clay Center, Kan., have made a commitment of \$1 million to the College of Agriculture at Kansas State University to establish the Jim and Carol Brown Endowed Professorship in Grain Science.

The fund will benefit a faculty member in the Department of Grain Science and Industry, specifically the feed science and management undergraduate teaching program. It will supplement salary while also providing additional operating support for assistants, travel, equipment, research and other expenses. The generosity of the Browns marks the third endowed professorship for the department, which support each of the three bachelor's degree programs available: milling science and management, baking science and management, and now feed science and management.

Jim graduated from K-State in 1959 with a bachelor's degree in feed science and management. Carol also attended K-State, and earned her bachelor's degree in human ecology in 1960. Jim is the majority owner of Key Feeds, a feed manufacturer in Clay Center, Kan. Carol is retired from the interior decorating business.

Jim currently serves on the College of Agriculture Dean's Advisory Council. He and Carol are members of the KSU Foundation's Presidents Club, a philanthropic leadership organization for friends and alumni of

K-State. "The Grain Science and Industry Department prepared me for the business life, and I'm glad someone had the foresight to hire the faculty members that were there to instruct me," Brown said. "We wanted to be able to support the faculty members who are instructing all these bright kids at K-State today."

"In order to continue our 100-year tradition of educating and sending talented, knowledgeable graduates out into the feed and grain processing industry, we need outstanding faculty members to deliver the latest information in science, technology and research," said Dirk Maier, professor and department head of Grain Science and Industry. "This professorship will help us recruit, reward and retain the very best faculty members in the field of feed science and management."

This gift complements an earlier gift by K-State alumnus Ron Kruse, which is allowing K-State to build a new feed mill, biorefinery and grain handling facility. Ground breaking is scheduled for Oct. 2, 2010. These gifts for faculty support and facility renewal in the Department of Grain Science and Industry at K-State provide a promising future for program growth and impact, and a solid basis for attracting and preparing young minds for rewarding careers in the grain-based food, feed and biofuel industry.

Kansas State Drops Iowa State 27-20

Iowa State Sports Information
KANSAS CITY – Iowa State and Kansas State were locked in a back-and-forth affair Saturday afternoon that concluded with a 27-20 Wildcat win in front of 36,468 fans at Arrowhead Stadium. Kansas State running back Daniel Thomas registered 181 yards of rush offense for the Wildcats on 34 carries and scored two touchdowns.

“Ultimately, Kansas State made a few more plays,” Iowa State head coach Paul Rhoads said. “We had a couple chances to do something. On the final drive we needed to move the ball better than we did. We were picking up first downs but needed more.”

Iowa State (1-2/0-1 Big 12) led 20-17 with 11:26 remaining in the game before Kansas State (3-0/1-0 Big 12) went 83 yards to score a touchdown off a two-yard run from Thomas with 6:47 remaining. The Wildcats added three points with 1:38 left following a fumble recovery on a sack to Cyclone quarterback Austen Arnaud. Arnaud had hurt his shoulder on the last play of the third quarter, but returned for a last-gasp drive.

“Austen is OK,” Rhoads said. “I thought Jerome Tiller did a real solid job when Austen was out. We said from the start this season that we had a young defense and they were going to learning game-to-game. You should give credit to Daniel Thomas. He is one of the nation’s top five running backs and overall as good as anyone in the nation.”

On the last Iowa State drive of the game, the Cyclones responded by driving to the Kansas State 36-yard line but could not find the endzone and eventually turned the ball over on downs.

Arnaud went 15-27 for 122 yards in the air and gained 39 yards rushing. Alexander Robinson carried the ball for 82 yards for the Cyclones.

Grant Mahoney’s 43-yard field goal had tied the score, 17-17 with 3:32 left in the third quarter. His 35-yarder put the Cyclones ahead, 20-17 with 11:26 left in the game. Kansas State got a break when Carson Coffman’s 47-yard pass was nearly intercepted but was instead grabbed by Brodrick Smith. The Wildcats scored five plays later for a 24-20 lead with 6:47.

Earlier, Cyclone linebacker A.J. Klein picked off a Carson Coffman pass and raced 69 yards for a touchdown to give Iowa State a 14-10 lead. It was Iowa State’s first defensive touchdown since Derec Schmidgall’s interception runback against South Dakota State in the 2008 season opener.

But the Iowa State defense didn’t have an answer for Thomas who ripped off several strong runs. His dive for a TD put KSU back into the lead, 17-14 with 9:47 left in the third quarter.

Iowa State recorded a 3-0 early lead before the Cyclones executed their longest drive of the season thus far, going 81 yards in 14 plays. Arnaud hit Jake Williams on a 13-yard TD over the middle and the Cyclones took the lead, 7-3 with 14:55 left in the second quarter.

KSU responded immediately, going 67 yards in nine plays to take a 10-7 advantage when Coffman scored on a

10-yard run. When Iowa State could not sustain its ensuing offensive drive, Kansas State drove to the Iowa State 19. A Kansas State fake field goal attempt was stymied but the Cyclones could not counter with a scoring opportunity and the half came to an end. A bright spot in the first half for Iowa State was the punting of true freshman Kirby Van Der Kamp, who averaged 51 yards on three punts. Back-up running back Jeff Woody was another promising Cyclone performer, rushing for 43 on just six carries.

“We put Woody in there because it was hot and we wanted to give (Alexander Robinson) a rest,” Rhoads said.

Postgame Quotes - Kansas State

Head Coach Bill Snyder Opening Statement...

“You really have to give Iowa State their just due. They play hard; I knew that going into the ballgame. I hope that our players understood that. They are extremely well-coached. I have great admiration for (Austen) Arnaud and the type of young person that he is, as well as the quality of athlete that he is. To come back after that injury and put himself on the field, and to make some plays at the same time, I thought was very admirable. It was just one of those challenging games. Sometimes you stab yourself in the back, and we did that a couple of times. That obviously put us in great jeopardy. The interception return and the penalties in the first half inside the 20-yard line were detrimental to us. We just need to be a lot better when we are trying to put the ball in the end zone.”

On the play of Daniel Thomas...

“I thought he was very good. He played well and played hard. He did all the things he always does.”

On the ability of Carson Coffman to run the ball...

“We thought we could run it with our quarterback. I do not know how much yardage he got, but he kept the chains moving from time to time. We would not run him if we did not think he could be successful. We do not always guess right but we thought we had a chance to run with him.”

On the play of the defense...

“We made some mistakes that could have been critical. I was not pleased about that but we put some pressure on them. For the most part we made some plays on the ball. The good things we did I was pleased with but the bad things we did I am not too happy with.”

On the ideal number of carries for Daniel Thomas ...

“I do not have a number. If he does not carry the ball at all but we play well and do the things we are supposed to I would be happy with that. If he carries it 50 times and we do well and gain success from it then I am happy with that too.”

On whether Daniel Thomas gets stronger as the game goes on...

“I do not know if that is that case but I do know one thing; he does not

K-State Quarterback Carson Coffman (14) scores on a run. (Photo by Jon A. Brake)

Powell Receives Big 12 Award

MANHATTAN, Kan. – Kansas State senior running back and kickoff return specialist William Powell has been named the Big 12 Special Teams Player of the Week, the conference office announced Monday.

Powell’s distinction, which is the first of his career, marks the third time this season that a Wildcat has earned a conference weekly award. Daniel Thomas and Anthony Cantele were named the Big 12 Offensive and Special Teams Players of the Week, respectively, following K-State’s season-opening win over UCLA.

Last Saturday against Iowa State, Powell averaged 29 yards on four kick returns to help the Wildcats win their second straight conference-opener against the Cyclones. He had a 45-yard return that set up a touchdown drive, which gave the Wildcats a 17-14 lead in the third quarter. Powell, a former

walk-on, climbed up the Big 12 and national kick return rankings this week and currently ranks first in the league and 14th nationally with his 31.7 return average.

The honor marks the 28th time a Wildcat has been named the conference’s special teams player of the week, including the 12th since 2006. It is also the second straight season that K-State has earned a special teams player of the week accolade following the Iowa State contest as Emmanuel Lamur earned the award after the game with the Cyclones last year.

Kansas State, which has received votes in both the Associated Press and USA Today Coaches’ Polls each of the last three weeks, hosts UCF Saturday in a nationally-televised 11:30 a.m. contest on FSN. Fewer than 1,000 tickets remain available for the game, which serves as Fort Riley Day and the

annual University Family Day. Wildcat 4-Packs are available for only \$75 and military personnel can purchase seats for only \$10. Fans are also encouraged to purchase and donate tickets to someone in the military for \$10.

To order tickets for the UCF game, or any of the remaining four home games in 2010, fans can call the ticket office at 1-800-221-CATS, visit the new and improved k-statesports.com or stop by the ticket office in Bramlage Coliseum.

BIG 12 PLAYERS OF THE WEEK (WEEK 3)

Offense: Brandon Weeden, QB, Oklahoma State
Defense: Eric Hagg, DB, Nebraska; Curtis Brown, CB, Texas
Special Teams: William Powell, KOR, Kansas State

get weaker as the game goes on. We rest him from time to time. We are fortunate to have a guy like William (Powell) that can go on the field. He (Daniel Thomas) has been durable.”

On Brandon Harold’s forced fumble late in the fourth quarter...

“It was a major play in the ball game and for me it kind of reaffirmed his effort at a critical time in the ballgame. That could be challenged at some other times. Brandon perhaps was not as consistent today as he had been on the first two ballgames. He has played well and has not weakened our defense by any stretch of the imagination. He gives us some range and someone who has the opportunity to get his hands up and challenge the pass sometimes. I am happy with him.”

On the play of William Powell...

“You look at the kickoff returns, he did a nice job with that. William is just a very fine player and I cannot say that without saying the exact same thing I would say about Daniel (Thomas). He is just a special young person as well. He is a nice man, I appreciate that about him. He has got some talent.”

Wide Receiver Broderick Smith

On today’s win...

“It was a good win. You know we will have to come out next week just as strong. We are 1-0 in the Big 12...”

On taking a step forward as a team...

“I think we went out there and executed a lot better on offense. I think we became a lot better offensively, defensively and on special teams. I think we will go out there next week and know that we have to get better and execute again.”

Wide Receiver Aubrey Quarles

On today’s win...

“It was a great game, it was a nail biter. Defense, offense and special teams all did a pretty good job and were lucky enough to come out with a win and I feel really good about it.”

On the impact of running back Daniel Thomas...

“We have got a lot of faith in Daniel because you know he has the capability to make those big plays every time. We really have the trust in the offensive line, too because they are making big holes for Daniel to bust open on these big plays.”

On the taking a step forward...

“I feel as if we did take a step forward today because we played well against a Big 12 opponent. Our hats are off to them. They played a pretty good game but we were able to come out with a win, so I feel confident in

our team.”

Defensive Back Tysyn Hartman

On getting the win...

“It feels great. We knew it would be a close battle, just like it was last year. We were fortunate to come out on top, and Iowa State is a great team.”

On the inability to pull away...

“I feel like we would do a great job, but they would respond on the next drive. I thought we played a good game overall, but they always seemed to get some sort of points.”

On where the secondary is as a unit...

“I think in the secondary we made some strides. We did not allow the deep-ball to be caught like we had in previous games. We need to tackle better in the future. (Austen) Arnaud was able to break out of a lot of tackles today.”

Linebacker Blake Slaughter

On winning in Arrowhead Stadium...

“It was pretty awesome, but I played here last year so it was nothing new to me. Coming into the game I knew what to expect, so you just have to go out there and make plays. If you truly sit back and think about it, it is pretty cool to play in an NFL stadium.”

On what the defense needs to improve on ...

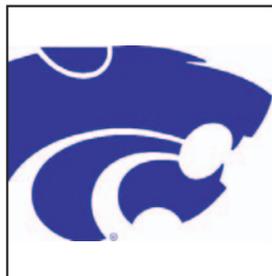

“I think we have to become more physical upfront. We have to be able to tackle better, wrapping them up around the feet.”

On Iowa State’s physicality...

“I would not say they were more physical than I expected, but I did know they were going to be a tough team. Their linemen get off of the ball and get their hands inside and are able to get a lot of movement. They were definitely the most physical team we have seen so far.”

Kansas State Quarterback Carson Coffman (14) had a good game. (Photo by Jon A. Brake)

Kansas Jayhawk Fall 31-16

Kansas Sports Information

HATTIESBURG, Miss. — Southern Miss' hurry up aerial attack and efficient ground game set the tone for a disappointing Friday night for the University of Kansas football team. The Jayhawks fell to the Golden Eagles 31-16.

Kansas dropped to 1-2 overall while USM improved to 2-1.

KU scored both of its touchdowns in the second half. In the third quarter, Kansas marched 59 yards on 11 plays. Redshirt freshman Deshaun Sands punctuated the drive with an eight-yard TD run, the first of his career.

Kansas' second TD was set up by a 54-yard kick return by sophomore D.J. Beshears. On the next play, red-shirt freshman QB Jordan Webb found senior WR Johnathan Wilson for a 41-yard touchdown strike. It was

Wilson's first touchdown since the 2008 Insight Bowl.

Kansas trailed at the half 21-3. Southern Miss scored first on a one-yard pass play from running back V.J. Floyd to WR Jonathan Massey.

The Golden Eagles were driving again when safety Phillip Strozier came out of nowhere to pick off a pass from Austin Davis. KU was able to capitalize on the turnover when kicker Jacob Branstetter split the uprights on a 37-yard field goal.

USM found the endzone two more times in the half, once on a 49-yard run by running back Desmond Johnson and the other on a punt blocked and returned for a TD.

True freshman running back James Sims had his second straight solid game. In his first collegiate start, he carried 20 times for 74 yards. Sands

finished with eight rushes for 34 yards and a TD. Webb was 16-of-26 for 138 yards and a touchdown. Junior Daymond Patterson led the receivers with five catches, while Wilson had 67 receiving yards and a score.

Defensively, KU was led by senior LB Drew Dudley with eight tackles including one for loss.

Southern Miss quarterback Austin Davis finished 19-of-24 for 155 yards, no touchdowns and one interception. Running back Desmond Johnson had 89 yards on eight carries and a touchdown. Davis also had 61 rushing yards on nine carries and a score.

Kansas hosts New Mexico State Saturday, Sept. 25 at 6 p.m. in Memorial Stadium. The game will be broadcast on Fox College Sports Central in addition to the Jayhawk Radio Network.

Aggies Top Louisiana Tech

Texas A&M Sports Information

COLLEGE STATION, Texas (AP)—Jerrod Johnson had 349 yards passing and four touchdowns and Texas A&M overcame a sloppy start to get a 48-16 win over Louisiana Tech on Saturday night.

The Aggies (2-0) fumbled five times and missed a field goal in the first half but still led 21-10 at halftime thanks to a solid defensive effort.

They cleaned things up after halftime with Johnson connecting on a 3-yard touchdown pass to Jeff Fuller, who finished with 160 yards receiving, to push the lead to 28-10 early in the third quarter. That was Fuller's 19th career touchdown reception, which ties a 42-year-old school record. He is tied with Bob Long, whose record has stood since 1968. That score

was set up by a 67-yard run by Christine Michael.

Texas A&M added a score on a 54-yard punt return by Dustin Harris in the third quarter and Johnson added another touchdown toss early in the fourth quarter. The return by Harris was the first punt return for a touchdown by the Aggies since 1998.

Louisiana Tech (1-1) used two quarterbacks, Tarik Hakmi, who ran for one touchdown and threw a second one, and Colby Cameron.

- Mike Sherman [mp3]
- Jerrod Johnson [mp3]
- Uzoma Nwachukwu [mp3]
- Jeff Fuller [mp3]
- Damontre Moore [mp3]
- Dustin Harris [mp3]

Johnson returned for a couple of plays on the next drive after his last touchdown throw before being replaced by backup Ryan Tannehill

with A&M leading 45-16.

Texas A&M's defense, which ranked among the nation's worst last season, turned in another strong performance. The Aggies allowed just 269 yards and forced seven fumbles and had two interceptions.

It was an ugly first half with the teams combining for 10 fumbles. A&M lost four of its fumbles and Louisiana Tech lost two before halftime.

A&M was up 14-3 when Terrence Frederick fumbled a punt at the 1-yard line that was recovered by Louisiana Tech. Louisiana Tech was stuffed on its first three tries, but Hakmi punched it in on fourth down to make it 14-10.

Ryan Swope lost the ensuing kickoff on a fumble, but the Aggies got it back three plays later when Lennon Creer fumbled on the A&M 23.

The Aggies didn't do anything on their next drive but got the ball back with 18 seconds left in the first half after a fumble by Cameron. Johnson ran for 17 yards on first down before his pass on second down was intercepted by Adrien Cole. That interception was wiped out because of a personal foul and Texas A&M got one untimed play before halftime.

Louisiana Tech lined three defenders up at the goal line to defend a deep throw. That didn't keep Johnson from finding Uzoma Nwachukwu in a swarm of defenders for a 44-yard touchdown pass to give A&M a 21-10 halftime lead.

The Aggies missed a field goal in the first quarter before Matt Nelson gave Louisiana Tech the lead with a 37-yard field goal.

Cyrus Gray scored on a 3-yard run late in the first quarter before Tannehill's 10-yard reception in the second pushed the lead to 14-3.

Randy Bullock had a 40-yard field goal in the third quarter and one from 22 in the fourth quarter.

Colorado Buffs On The Way Out

The Big 12 announced it has reached agreement with the University of Colorado regarding its withdrawal from the Conference effective June 30, 2011, subject to final approval from the member institutions' respective governing boards.

The Conference will withhold \$6,863,000 from the revenues otherwise distributable to the University. Colorado will withdraw from the Conference at the end of the current academic year.

Big 12 Conference Commissioner Dan Beebe stated, "This agreement was accomplished through a collegial, respectful process among the Conference, its institutions, and the University of Colorado that led to a resolution that all parties believe is fair. I appreciate the cooperation of

Chancellor Phil DiStefano and others at Colorado. The Big 12 has enjoyed its relationship with CU and wishes it well in the future."

"The University of Colorado at Boulder was a founding member of the Big 12 and a proud participant in it for 15 years," said DiStefano. "Even as we leave for an exciting future in the Pac-10 Conference, we value the great friendships and memorable rivalries we have been a part of, and we appreciate the good faith Commissioner Dan Beebe has shown in working with us on our exit from the conference."

"We are pleased that, with this issue behind us, the Big 12 is poised to begin the transition to its exciting future as a 10-member Conference beginning in July," Beebe added.

Cowboys Take Down Tulsa

STILLWATER, Okla. - Brandon Weeden passed for 409 yards and six touchdowns, three to Justin Blackmon, and Oklahoma State set a school record for total offense in a 65-28 victory against Tulsa on Saturday night.

Weeden's left the game after one series in the third quarter, following an 81-yard scoring pass to Blackmon, the sixth-longest pass play in school history. He completed 23 of 32 passes.

The teams combined for 1,150 yards of offense, including 722 by Oklahoma State, breaking the school record of 717 set against Kansas during Barry Sanders' Heisman Trophy season in 1988.

Blackmon had six catches for 174 yards and has nine touchdowns this season.

Oklahoma State is 3-0 for the 19th time and the fourth time in six seasons under coach Mike Gundy.

G.J. Kinne passed for 219 yards but threw three interceptions for Tulsa (1-2).

Oklahoma State Head Coach Mike Gundy Opening Statement

"Obviously, it was a good night for us. We were pleased with the way our team played and responded to playing poorly last week. We still have to improve on special teams in our return game and we obviously haven't worked out all the kinks in kickoff coverage. We were able to move the ball effectively and we had the chance to play a lot of young players, which is good. Just about every freshman that we have got to play - everybody in the program that does a great job of

helping our football team get better each day. A lot of those guys are walk-ons and big favorites of our coaching staff. The kids that donate their time to make our team better got to play a full quarter tonight, so I was really, really happy about that. Getting them a chance to get out and let their moms and dads see them play, that's a big thrill for our coaching staff. We're looking forward to an open week. We'll practice three or four days this week and get ready for conference play. As we talk about each week, the opponents will get better as we go, so we'll have a great challenge on our hands in a couple weeks."

On the OSU offense

"Obviously, they played very well. I thought Brandon (Weeden) played well and I thought we caught the ball well. I don't know if we had any drops tonight. We were able to run the ball somewhat. Tulsa's choice was to not let us run and drop both safeties down and play with a single safety, so it forced us into more of a pass situation than we had been accustomed to early in the year. I thought the offensive staff made a nice adjustment and Brandon handled things very well."

On the open week

"Open dates always come at a good time. It's good for the players to catch their breath. It's good for the coaches to catch their breath and to go home and spend some time with their families. It is an opportunity for us to get out on the road in recruiting and see some young players and get out there and find guys that can come in here and beat some of the guys out that are on our team."

On the school record offensive performance

"For me to say anything other than we were hitting on all cylinders wouldn't really be fair. I don't want to take anything away from Tulsa. We just had a good night and had a good plan and things worked. It seemed like we were in third and long and we'd convert. Brandon moved around a couple times on third and long and dumped it to Kendall (Hunter) and he would make a play. Then we threw the ball down the field. Sometimes you have games like that when things really work."

On Justin Blackmon

"Justin has continued to get better. The reason for that is he practices very well. He practices hard and he accepts coaching. He listens. He studies tape and the game is important to him. As long as he continues to do that then he will improve. He's got good body control and he's got good hands and he's somewhat deceiving speed wise, in my opinion, because of the way he strides. He has bought in, in the last three or four months, more so than he did as a freshman; but obviously as a freshman it's a tough pull. He's been very good for us and if he continues to do this he'll make a lot of plays."

Dana Holgorsen, Offensive Coordinator

On the offense so far

"It didn't look bad the first game, other than the fact that we three-and-outed a lot. The second game was obviously about penalties and turnovers. Tonight, we for the most part executed pretty good. We turned it over late, but didn't have many penalties."

OU Remains Unbeaten With Win Over Air Force

Oklahoma Sports Information

NORMAN, Okla. — Close games aren't so scary anymore for No. 7 Oklahoma.

DeMarco Murray gained a total of 148 yards and scored three touchdowns, helping the Sooners squeak by Air Force 27-24 Saturday in another close victory at home.

The Falcons (2-1), the nation's top rushing team, piled up 351 yards on the ground and scored 14 unanswered fourth-quarter points in a comeback bid that fell short. It was the third straight time the Sooners (3-0) won a game decided by seven points or less, after losing four of those games last season.

"We're not going to score 60 points every game and the defense is not going to get a shutout every game," said Murray, who picked up 110 yards rushing and 38 receiving. "These kind of wins, they bring us closer together and just make us work harder."

Murray ran for a 5-yard touchdown and scored on a 17-yard screen pass in the third quarter as Oklahoma reeled off 17 straight points to build a 27-10 lead after Air Force had tied it early in the second half. That ended up being just enough of a cushion.

The Sooners finished last season with a 31-27 win against Stanford and started this year with a 31-24 win against Utah State, turning what had been their Achilles' heel into a strength. Four of Oklahoma's five losses last season were by a combined 12 points.

"Usually in tight games here, we've come out on the other end and losing those ballgames instead of pulling it out in the end," said quarterback Landry Jones, who started two of those losses and relieved an injured Sam Bradford in the other two. "It

was good for us to win a tough game."

Jones finished with 254 yards on 26 for 42 passing with one TD and no interceptions. Ryan Broyles added 116 yards receiving. It was his sixth straight game with at least 100 yards receiving, but he had his streak of six straight games with a touchdown broken.

Jared Tew had a 5-yard touchdown run and Kyle Halderman cut Air Force's deficit to three with a 15-yard score with 3:39 remaining. The Falcons elected to kick it deep as Oklahoma was protecting against an onside kick, and the Sooners were able to pick up two first downs to run out the clock.

Freshman Kenny Stills made a 10-yard catch over the middle on third-and-3 to pick up Oklahoma's final first down after Air Force spent its last timeout.

"We've just got to come up with a stop at that point," said Falcons coach Troy Calhoun, who was seeking his third straight win against a ranked opponent.

The Sooners had lost two of their last three games against Mountain West members and gave up the most rushing yards of Bob Stoops' 12 years as coach before extending the nation's longest home winning streak to 33 in a row.

Air Force came in leading the country with 423 yards rushing per game didn't slow down much against a Sooners' defense ranked among the top 20 against the run each of the last nine seasons.

"I never want to see this kind of offense again," Oklahoma linebacker Travis Lewis said. "I love coach Stoops and the way he schedules our nonconference, the tough ones. But not this one."

Huskers Prepare For Jackrabbits

Lincoln- Nebraska practiced in full pads Tuesday afternoon on the Ed and Joanne Gass Practice Fields as they continue to prepare for this Saturday's game against South Dakota State. After practice, Defensive Coordinator Carl Pelini addressed the media about getting the Blackshirts prepared to face this weekend's opponent.

"When we break down opponents, we look at technique and schemes, and how we to technique and scheme it," Pelini said. "For us, it doesn't matter who we're playing. It's a matter of learning their offense and adjusting our coverages. I think our guys are as locked in as they have been any week."

Pelini also talked about the linebackers progressing as a group saying, "They're still making a lot of mistakes. But those mistakes are lessening as they go. I'd like to see them make a huge jump this week and with extra time with the bye week and Kansas State, I'd like to see

them lock it in. They're getting better."

After allowing four completions last weekend against the Huskies, Pelini feels that the Blackshirts are progressing as a whole unit.

"We thought year three is when your guys start to get what your teaching and they're very comfortable with it," Pelini said. "As a staff, we've always felt a lot of pressure to show our guys everything they're going to see on Saturday. I don't think we feel that same pressure anymore because our guys understand the concepts of the defense. If they give us something new, they just apply their roles and it's ok. We weren't there last year, even at the end of the year. We certainly weren't there year one. I feel like we're starting to get there now."

The Huskers will face SDSU this Saturday at Memorial Stadium. The 6 p.m. game will be on FSN pay-per-view.

Air Force surpassed 200 yards rushing when Jefferson scored on a 38-yard option keeper to finish the Falcons' opening possession of the second half and even the score at 10. That was a great sign for a Falcons team that was outscoring opponents 55-0 after halftime, but only for a moment.

It took only 31 seconds for the Sooners to answer. Mossis Madu scooped up a squib kick and returned it 39 yards, and Broyles followed with a 36-yard catch down the middle to set up Murray's 5-yard TD run that put Oklahoma up to stay.

Jimmy Stevens, filling in for injured starter Patrick O'Hara, tacked on a 41-yard field goal after a three-and-out by Air Force. The Falcons were driving into Oklahoma territory following a 33-yard catch by Jonathan Warzeka when Jefferson committed the game's only turnover by fumbling as he scrambled away from pressure.

Demontre Hurst recovered to set up a 76-yard scoring drive, with Murray going into the end zone untouched from 17 yards out.

"Turnovers kill our offense. We were driving down the field, and it all gets taken away just like that," Jefferson said. "That's on nobody but me."

Jefferson led Air Force with 96 yards rushing, and Tew had 93 while plowing right through the middle of the Sooners' usually stout defense. It still wasn't quite enough.

Erik Soderberg, who connected on a 20-yard chip shot on the Falcons' first drive missed a 48-yard field goal with the wind at his back at the end of the first quarter.

"We came into this game thinking that we were going to win," Tew said. "We don't come into any game just wanting to get close. Just because they're the No. 7 team, we're not going to back down and just try to get close to the No. 7 team."

"We came in here to win, so it's a little disappointing not to."

Longhorns Down Tech

Texas Sports Information

LUBBOCK, Texas (AP) — Garrett Gilbert threw for two touchdowns and 227 yards to lead No. 6 Texas past Texas Tech 24-14 in Lubbock Saturday night.

Texas put the game out of reach in the fourth quarter after draining more than nine minutes off the clock. The 22-play drive included a risky and successful fake punt on fourth-and-1 on its own 29.

Gilbert capped the march with a 1-yard pass to Barrett Matthews to give the Horns a 24-14 lead with 9:26 left. Gilbert finished 21 of 36 with three interceptions.

The game included seven turnovers, four by the Longhorns (3-0, 1-0) and three by the Red Raiders (2-1, 0-1).

Texas got a field goal and a touchdown off two Texas Tech turnovers. Red Raiders cornerback Jarvis Phillips intercepted Gilbert twice and returned one 87 yards for a score.

Taylor Potts finished 21 of 35 for 159 yards, with a touchdown and two interceptions for Tech.

Potts left the game briefly with what appeared to be an injury to his right hand. Backup Steven Sheffield came into the game for one series and was sacked for a 13-yard loss on his third snap.

In the opening drive of the third

quarter Curtis Brown intercepted a pass from Potts at the Texas 14 and it appeared he would scamper for a touchdown. But Baron Batch caught up with Brown and tackled him at the Texas Tech 14. The Longhorns kicked a field goal to make it 17-14.

On the long drive that put Texas up 24-14, they got help from Will Ford on a third-and-13 from the Red Raiders 27. Gilbert's pass to Greg Smith fell incomplete, but Ford was called for a taunting penalty to give Texas a first down and another shot to get a score. A few plays later Gilbert hit Matthews with a lob pass for the touchdown.

James Kirkendoll had six catches for 122 yards for Texas.

Texas coach Mack Brown wanted more points early — the Longhorns had scored only a field goal in the opening quarters of the first two games — and he got them. In the first 7:30 of the game Texas had two touchdowns.

On Texas Tech's first play from scrimmage, the snap went over the head of Potts and was recovered by Jackson Jeffcoat at the Red Raiders 7. On the next play Fozzy Whittaker rushed it in, stretching his arm across the goal line to put the Horns up 7-0.

Texas Tech couldn't get a first

down and when Texas got the ball to Gilbert he led the Longhorns on 79-yard scoring drive, including a 33-yard pass to Kirkendoll. Gilbert rolled out to his right and hit Mike Davis for a 7-yard score to put Texas up 14-0.

Three Texas turnovers, all interceptions within a minute's span, seemed to bring the Texas Tech defense to life.

Gilbert had the Longhorns at the Red Raiders 20 when Scott Smith intercepted him at the 13. On the next play Potts got his second turnover when Blake Gideon plucked the ball at UT's 43 and returned it 22 yards.

Four plays later, with the Longhorns threatening again at the Red Raiders 19, Smith tipped the ball and cornerback Phillips Jarvis grabbed it and scooted 87 yards along the near sideline to pull the Red Raiders within 14-7 with 1:39 left in the first quarter.

The Longhorns were forced to punt on their next drive. Batch's 25-yard run put the Red Raiders on UT's 43 and a few plays later Potts threw a 15-yard touchdown pass to the corner of the end zone and his high school teammate, Lyle Leong, pulled it in to tie the game at 14-14 early in the second quarter.

Baylor Falls To TCU 45-10

Baylor Sports Information

FORT WORTH, Texas (AP) - Ed Wesley ran 19 times for 165 yards and two touchdowns, Andy Dalton completed 21 of 23 passes for 267 yards with two scores and fourth-ranked TCU stretched its home winning streak to 16 games with a 45-10 victory over the Bears on Saturday.

The Horned Frogs (3-0) scored touchdowns on their first five drives to build a 35-3 lead and had 335 of their 558 total yards by halftime.

Dalton, whose 91-percent completion rate was a single-game TCU

record, hit his first 11 passes on way to his 32nd career victory, most among active BCS quarterbacks. His first incompleteness didn't come until 4 minutes into the second quarter.

After overthrowing a covered receiver in the end zone, Dalton hit Jimmy Young for an 11-yard pass to the Baylor 12 on the next play. Wesley needed two runs from there to score, his 5-yarder for his second touchdown capping an 11-play, 90-yard drive for a 28-3 lead.

Baylor (2-1) missed a chance for only its second 3-0 start since 1996.

The Bears haven't had a winning season since the inception of the Big 12 in 1996 and are 2-48 against ranked teams during that span - 0-19 vs. top-five teams.

This was only the third meeting between the private Christian schools less than 90 miles apart since 1995, the last season of the SWC. BCS-busting TCU has won the three games by a combined score of 89-17, and now has a 50-49-7 series lead.

The Frogs have won or shared conference titles in three different leagues since being left out when Baylor and three other Texas schools from the old SWC merged with the Big Eight to form the Big 12. Even without automatic access into the Bowl Championship Series like those other schools, TCU reached the BCS last year after an undefeated regular season.

On the opening series of the game, Dalton hit a wide-open Jeremy Kerley streaking down the middle of the field for a 28-yard score.

After Baylor dual-threat quarterback Robert Griffin was stuffed for a 5-yard loss on his first snap and the Bears went three-and-out, Wesley took a handoff over the left side, busted through the line and had a clear path to the end zone for a 14-0 lead less than 7 1/2 minutes into the game.

Griffin threw a 53-yard TD pass to Josh Gordon in the third quarter, but was frustrated most of the day by TCU's stifling defense. Griffin finished 16-of-28 passing for 164 yard and ran 14 times for only 21 yards.

The 11 consecutive completions to start the game were a career high for Dalton, and the second-best in TCU history.

Kerley had six catches for 69 yards, plus had a 45-yard punt return in the second quarter that set TCU up at the Baylor 25 before Luke Shivers scored on a 2-yard run to make it 35-3. Kerley broke free toward the left sideline after Greg Burks' crushing block on Mike Hicks, who was flattened when it appeared he might be able to get to Kerley.

Big 12 Spotlight: KSU's Joan Friederich

By Big12Sports.com
By Wendell Barnhouse

The saying goes is that behind every great man is a great woman. If that's the case for Bill Snyder, that great woman would be his wife Sharon. But the Kansas State coach is twice blessed when this adage is applied.

Joan Friederich is the power and authority beside the throne in the office next to Snyder's in the Vanier Football Complex. Friederich's title is Administrative Assistant to the Head Football Coach. The job description, though, is simple: Everything.

"I'd fall through the cracks," Snyder said if it wasn't for Friederich. "She was here before I got here the first time and she has so much experience in knowing what needs to be done."

Friederich started working in the Kansas State football offices in 1973 as an administrative assistant for the team's assistant coaches. In 1980, then coach Jim Dickey promoted Friederich to serve in the same role but as his "ad min." She has been in that role for Dickey, Stan Parrish, Ron Prince and Snyder — twice.

"There are a lot of things, year in and year out, that I know have to get done," Friederich said. "Having been here so long, I've got an idea for things that need to get done before the season starts or before recruiting starts."

For football coaches, their time is one of their most valuable commodities. For the Kansas State coaches she has worked for, Friederich does what she can to make every minute valuable.

"I know the system," Friederich said. "Each coach changes things a little bit but I do things the way they like them done."

As Snyder's administrative assistant, Friederich serves as a gate keeper. Particularly during football season, she tries to make sure that the interview/autograph/face-to-face requests are filtered.

"Sometimes I call myself a traffic director," she said. "During football season, there's more of a week-to-week routine during the season but we're busy year-round."

Friederich is in her 19th football
